About Coleman Milne

For over 70 years, Coleman Milne has been the UK's premier manufacturer of ceremonial vehicles. Since producing our first hearse in 1953, we've grown to become the UK's market leader, offering the widest range of hearses, limousines and removal vehicles available today. Our in-house team of specialist craftsmen and women ensures every vehicle meets the highest possible standards, with vehicles developed in line with UK Whole Vehicle Type Approval requirements to support quality, compliance and consistency throughout production. Part of

the Woodall Nicholson Group, we maintain our proud heritage of British coach building while continually investing in advanced manufacturing technology. All our manufacturing facilities are ISO9001:2008 Quality Standard certified, enabling us to deliver exceptional quality whether creating single bespoke conversions or line production vehicles. From our UK factory, we supply vehicles that are expertly designed, functionally superb and competitively priced.

MADE IN BRITAIN

UK MARKET LEADER

The widest range of ceremonial vehicles available, trusted by funeral professionals nationwide

QUALITY ASSURED

ISO9001:2008 certified facilities with specialist in-house craftsmen ensuring the highest standards

The Mercedes Hearse and Limousine

The Mercedes E-Class range is the embodiment of clean, modern elegance. Built to the highest standards using the finest materials, Mercedes ceremonial vehicles offer an unparalleled specification. Underpinned by the technical excellence of Mercedes running gear, our vehicles boast innovative features and options to create a range of exquisite funeral vehicles.

E-Class Hearse

This classically styled hearse combines luxury and comfort as standard. Featuring a panoramic glass roof, high specification LED ambient lighting, four large doors, and a choice of two or three bearer deck configurations, it offers the flexibility to suit individual operational preferences without compromising on elegance or practicality.

Available in both AMG Line and Exclusive Premium specifications, the driving experience is equally impressive, with heated front seats, climate control and self-levelling suspension delivering smooth, dignified travel.

E-Class Limousine

Our Mercedes limousine is the ultimate in refinement, style and technical excellence. Available in both AMG Line and Exclusive Premium specifications, the six-door model is the epitome of comfort, dignity and elegance.

The luxuriously appointed interior is further enhanced with an optional glass roof and electric middle window doors, making this an exceptional proposition for funeral directors.

Model options

- E200 Petrol mild hybrid variant
- E220 Diesel mild hybrid variant
- E300e Petrol Plug-in hybrid variant

The AMG Line

The Mercedes E-Class AMG Line embodies clean, modern elegance, built to the highest standards using the finest materials. This exquisite vehicle offers an unparalleled specification for those who demand excellence.

The Exclusive Premium

The Mercedes E-Class Exclusive Premium has been designed to deliver a refined and sophisticated presence, combining elegant styling with a carefully considered interior environment. Finished with premium materials and crafted with meticulous attention to detail, it offers a distinguished balance of comfort, quality and understated luxury.

Etive Hearses and Limousines

The Etive Collection represents the evolution of ceremonial transport. Full-size, fully electric vehicles delivering traditional elegance with zero emissions. Built to the highest standards around the all-electric Ford Mach-E platform, these vehicles offer uncompromising specification and performance. Underpinned by advanced electric powertrain technology, the Etive hearse and limousine combine whisper-quiet operation with complete functionality, creating a range of environmentally responsible ceremonial vehicles without sacrifice to dignity or capability.

Etime Hearse

The Etime full-size hearse is designed for quiet, dignified service. Its refined exterior conceals a robust battery-electric powertrain, offering an estimated 200-mile range and reaching full charge in 3.5 hours via wallbox. Built to full Type Approval standards, the Etime delivers everything expected from a traditional hearse, with 3 full-size bearer seats with lap and diagonal seatbelts, flat full-length deck with ample space for floral tributes, glass roof over coffin area, and under-deck storage. Significant cost savings include exemption from Clean Air Zone charges and road tax, plus an 8-year battery warranty.

Etime Limousine

Complete your ceremonial vehicle fleet with this graceful zero-emission battery-electric limousine. The Etime limousine is built for ultimate passenger comfort. Its upright stance provides an additional 114mm in height, delivering class-leading comfort and accessibility for passengers. Carrying up to 7 passengers plus driver, every detail ensures style and comfort, with luxurious internal fittings and an optional Perspex driver division screen. The Etime limousine delivers 100 percent electric passenger travel that meets exceptionally high standards.

Rear seat headroom	972 mm - 3'1"	

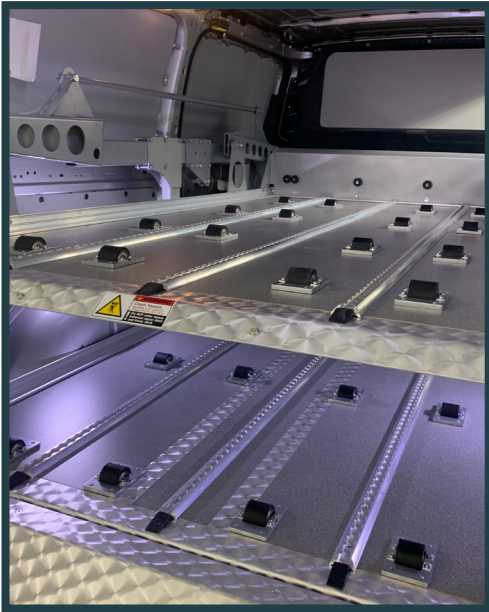

Removal Vehicles

Coleman Milne supply and convert removal vehicles and ambulances built to a standard specification which can be upgraded to suit your exact requirements from an extensive range of options.

We can also source base vehicles from a range of leading manufacturers thanks to strong relationships which we pride ourselves upon. We offer a variety of deck options and configurations tailored to the precise needs of your business.

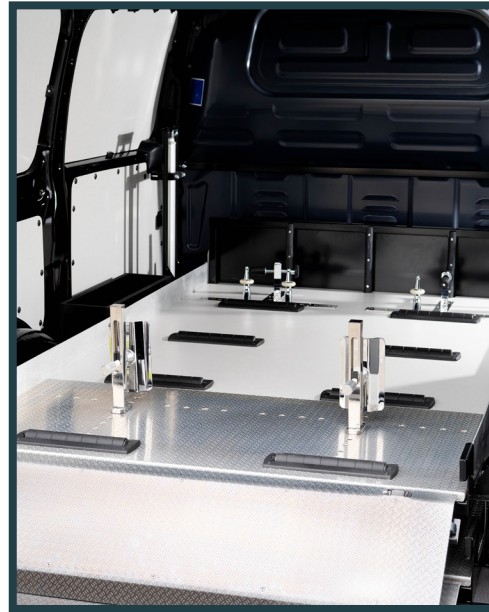

Deck Choices

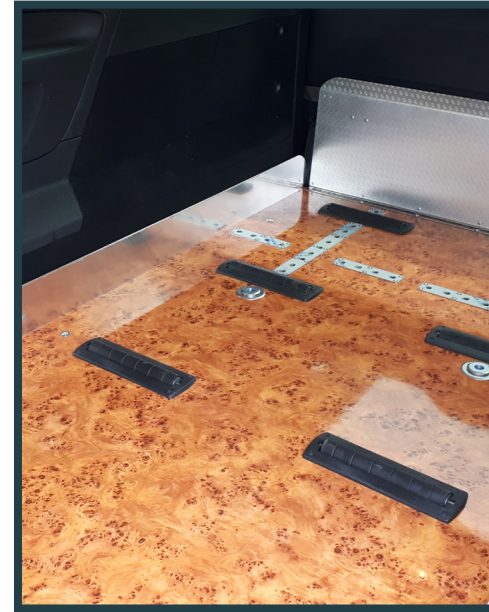

Flexfit

The Flexfit is a lightweight electric lift system designed to support a range of vehicle applications with flexible layout and storage options. Featuring a lightweight frame, electric actuators and a 400kg payload capacity, it can accommodate single, twin or side drawer configurations, while the compact easy-clean design and roller deck system support smooth day-to-day operation.

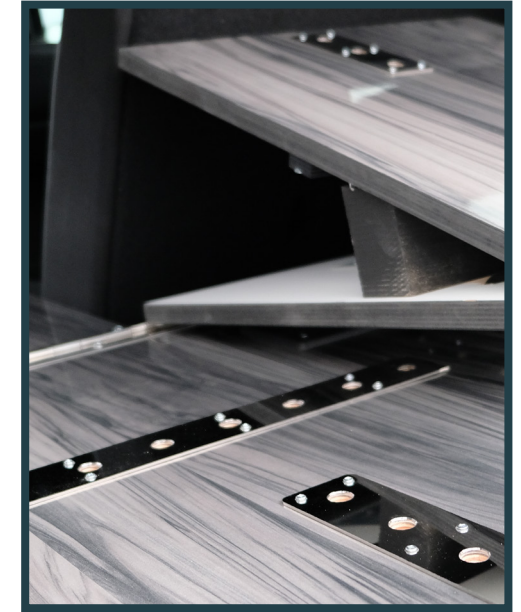

Sure-Lift

The Surelift system is designed for a wide range of van-based vehicles, including the Ford Transit Custom, Mercedes-Benz Vito and Renault Trafic. Its rise and fall deck system accommodates up to four stretchers or coffins, with quiet electric actuators providing smooth operation and helping to reduce manual handling for safe, efficient day-to-day use.

Fixed Deck

Fixed deck conversions are carefully integrated into a wide range of vehicles, providing a respectful, low-profile transport solution you can rely on. Simple, safe and dignified, the single fixed deck system securely accommodates two stretchers or coffins, making every journey straightforward and dependable.

Z Fold

Available on a range of MPVs and estate cars, this conversion is engineered for incredible flexibility. An ingenious design allows the deck to fold up and down for storage, easily converting from a standard vehicle to a removal vehicle in moments.

Used Funeral Vehicles

Coleman Milne carries a wide range of used hearses and limousines in various makes and models, including Mercedes, Ford, Jaguar, Vauxhall, and many more. All our approved used funeral vehicles are refurbished to the highest standards and include a warranty ranging from 3 to 12 months, depending on the age of the vehicle.
