

ETIVE

-COLEMAN MILNE-

The UK's first all-electric Hears and Limousine range

ETIVE

Coleman Milne is proud to present the Etive Collection.

The style and quality you'd expect from Coleman Milne, built around the all-electric Ford Mach-E.

An elegant and energy-efficient addition to your processional vehicle fleet.

The Etive Collection is a classic hearse and limousine, expertly designed around an electric powertrain. All emission-free, all battery electric, and fully capable of meeting the needs of any ceremonial fleet.

This exclusive pair is designed to exacting standards by Coleman Milne's electric vehicle conversion specialists with full Type Approval, and manufacturer guarantee.

With an 8-year battery warranty (or 100,000 miles), the range benefits from Coleman Milne's extensive engineering mastery and long-standing relationship with Ford.

The Etive Collection.
The next generation of ceremonial vehicles.

Etive Hearse

The Etive full-size hearse is designed for noiseless, dignified carriage.

Refined external lines conceal a robust battery electric powertrain, reaching full charge in 3.5 hours via wall box, with an estimated 200 mile range.

Built with **full Type Approval**, the Etive hearse delivers all you'd expect from a traditional powertrain hearse.

Efficient and economic, the Etive hearse is exempt from clean air zone levies and road tax, with its battery covered by an 8 year battery warranty.

Operational ease

- **3 full-size bearer seats with lap and diagonal seatbelts**
- **Flat full-length deck with ample space for floral tributes**
- **Glass roof over coffin area**
- **Under-deck storage**

The Etive Limousine

Complete your ceremonial vehicle fleet with this graceful zero-emission battery electric limousine.

The Etive limousine is built for ultimate passenger comfort. The upright stance of this unique model gives additional 114mm in height, for class-leading comfort and accessibility.

With carriage for up to 7 passengers and a driver, every attention has been paid to ensure utmost style and comfort, with luxurious internal fittings and optional Perspex driver division screen.

The Etive limousine draws on Coleman Milne's significant electric vehicle conversion experience, for 100 percent electric passenger travel that meets exceptionally high standards.

Minimal noise, maximum comfort

- **7 passenger seats with lap and diagonal seatbelts**
- **Luxurious internal fixtures and fittings**
- **Optional driver division Perspex screening**

Cost efficient and environmentally friendly

Offer your customers a more environmentally sound choice, without sacrificing the trusted functionality of conventionally powered ceremonial vehicles.

This **fully Type Approved battery electric vehicle fleet** is based on one of the few vehicle models specifically designed to be all-electric for best possible operational efficiency.

The Etive Collection battery electric vehicles benefit from **low maintenance, low servicing and low running costs**, ensuring a solid return on your investment.

Fully charged via standard wall box in approximately 3.5 hours the range is perfectly suited for daily operation and overnight charge. Its charging capacity fits the operational patterns of ceremonial fleets, with an estimated 200 mile range making both hearse and limousine viable for all-day service without recharge.

The Etive Collection is covered by Coleman Milne's 3-year guarantee, coupled with a 3-year Ford warranty and 8-year battery warranty (or 100,000 miles), for extra peace of mind
